02. Moving Average: Period: 101, Shift: 0, Method: simple, Apply to: Close

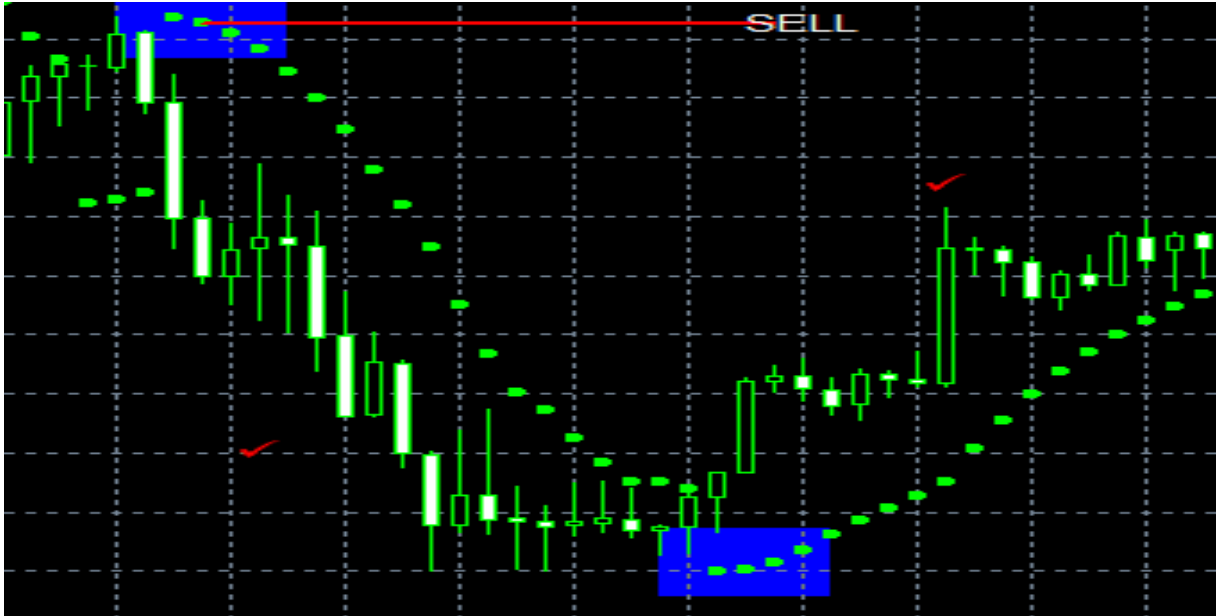

EA Requirements should be as given below.

BELOW IM GIVING EXAMPLE OF SELL POSITION ONLY,

ACCORDINGLY IT APPLIES TO BUY POSITION ALSO THAT I HAVE

NOT MENTIONED HERE.

01. Open SELL order when second dot of Parabolic SAR start on the TOP of candle/chart.

02. If there is buy position active then EA open sell position at second dot of parabolic sar sell signal.

01. EA refuse to place sell order. if parabolic sar give sell signal with single dot and do not start second dot.

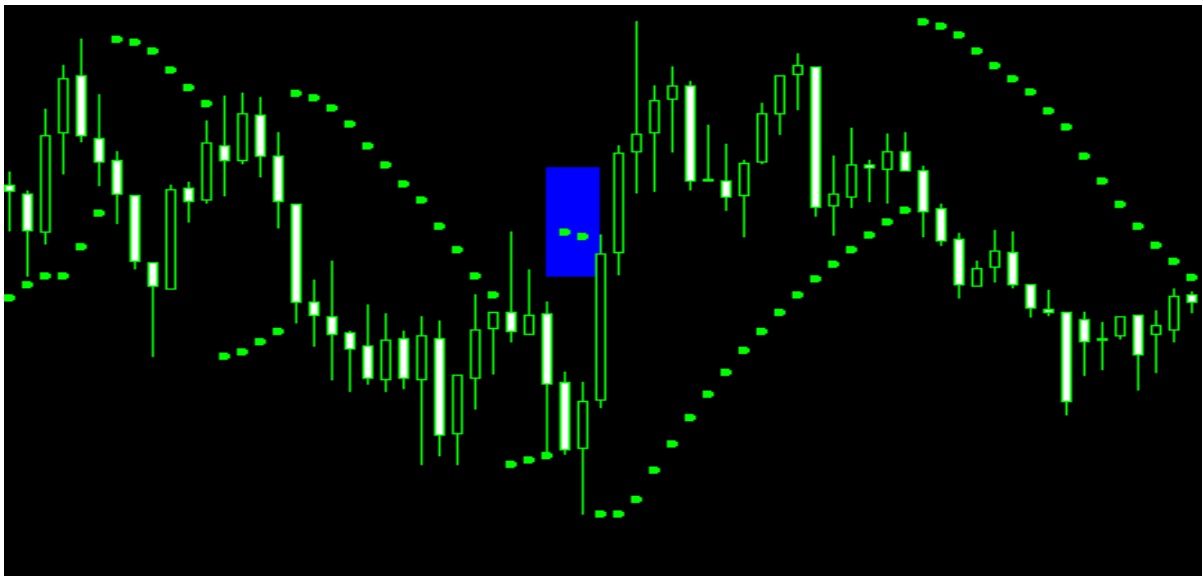

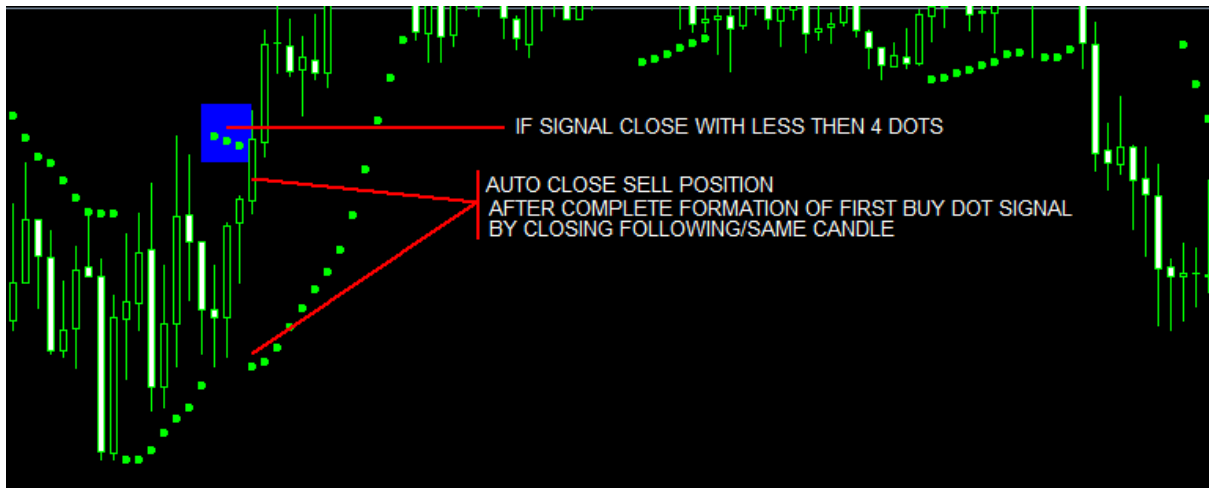

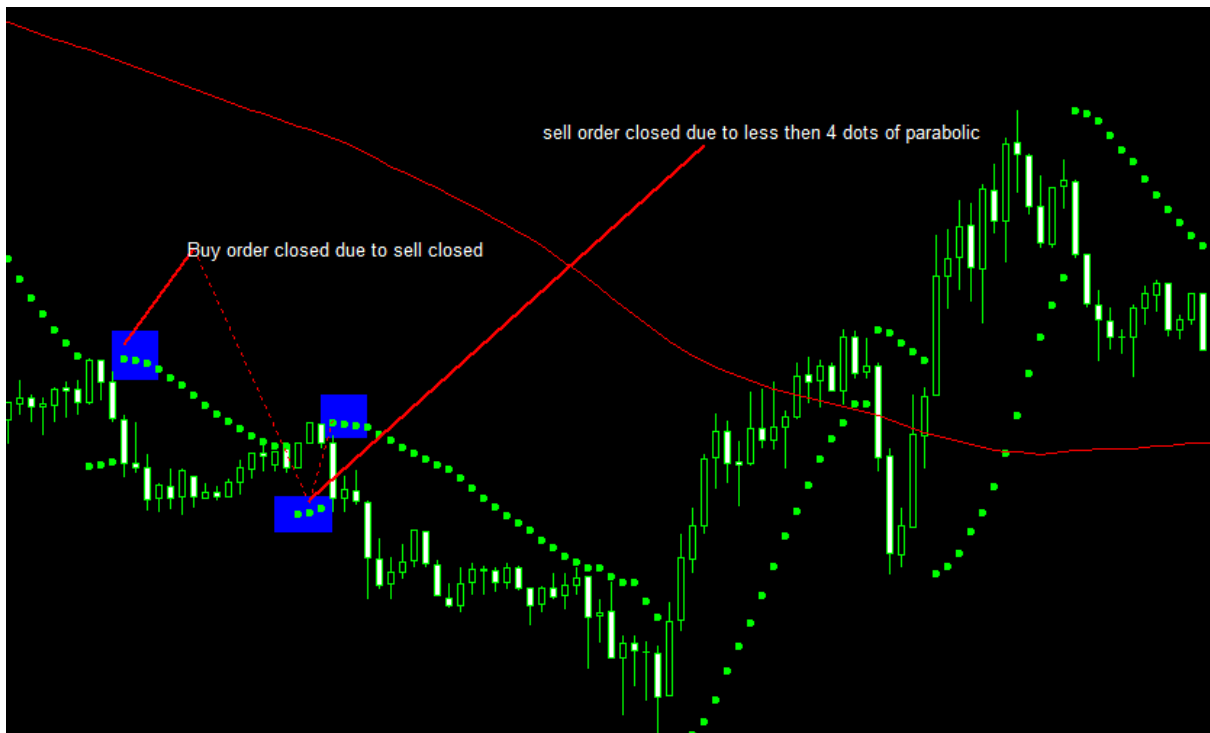

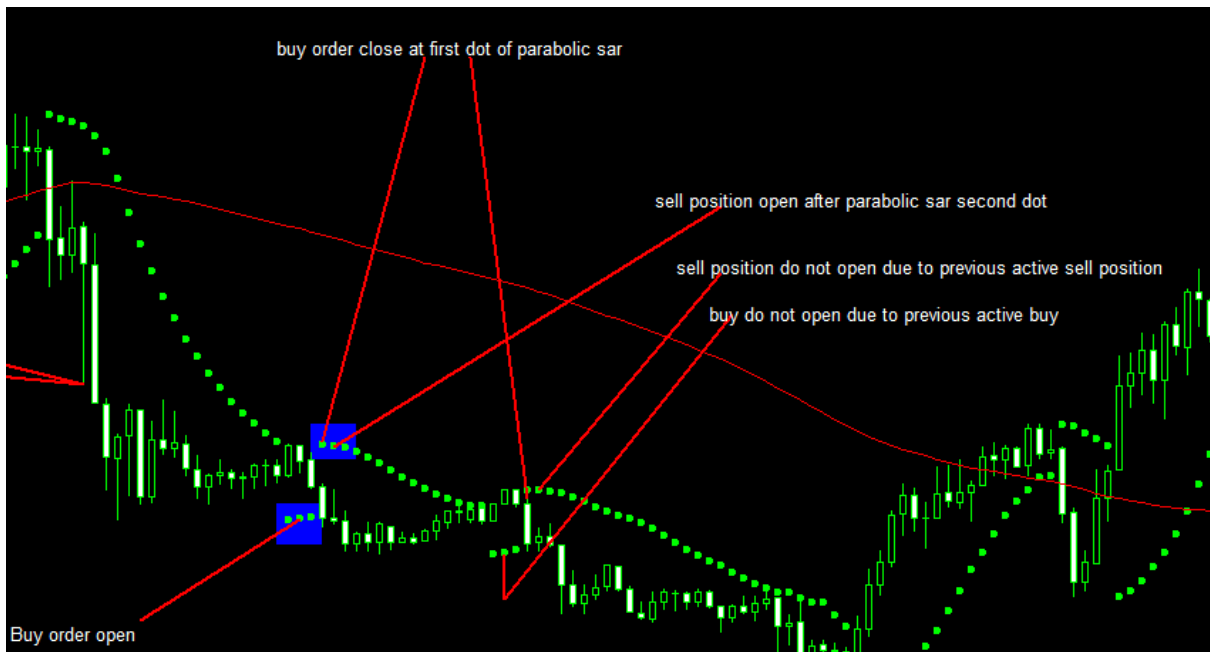

02. EA refuse to place sell order according to parabolic sar given sell signal if there is already active sell position.

01. If Parabolic SAR sell signal complete with less then 4 dots & PSAR start buy signal. At this condition EA close sell position. But candle must complete/close at Parabolic SAR first buy dot.

buy order close at first dot of parabolic sar

sell position open after parabolic sar second dot

sell position do not open due to previous active sell position

buy do not open due to previous active buy

Buy order open

sell order closed due to less then 4 dots of parabolic

Buy order closed due to sell closed

02. Auto close active sell position, if buy position book TP or close buy Position manually.
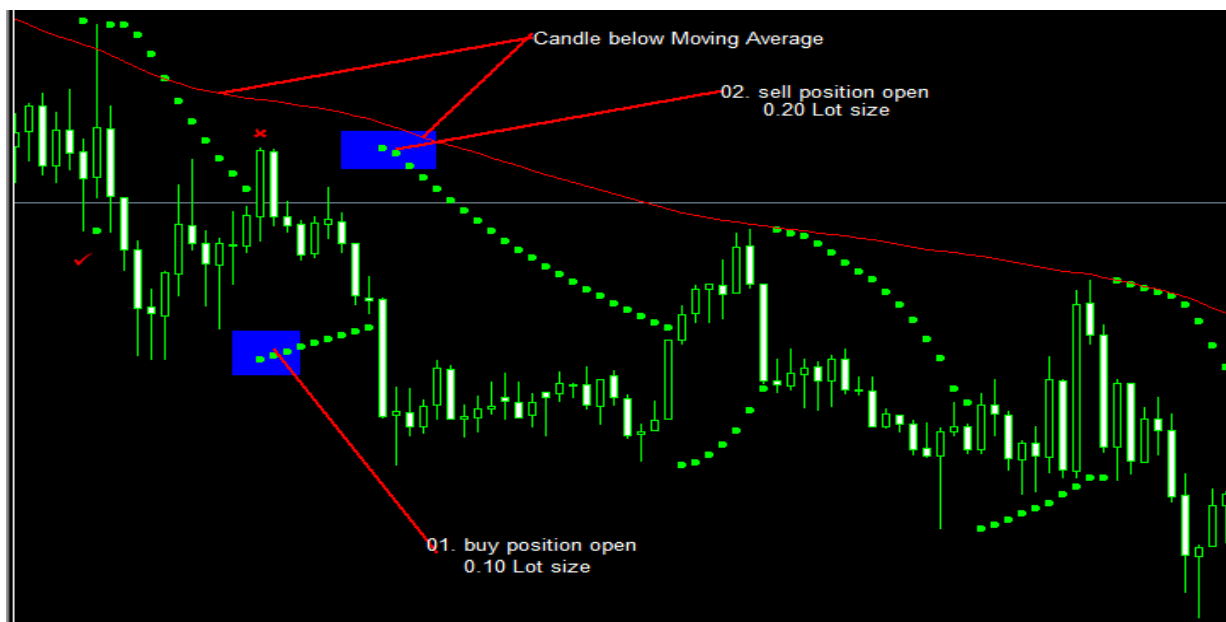

01. EA default Lot Size: 0.01, & ability to place manual Value for Lot Size in EA setting

02. EA open double lot size of sell position then active buy position lot size at second dot of parabolic sar sell signal. But double lot size order only if there is following criteria meet. **If criteria do not meet EA do not open double lot size and continue as previous lot size.**

Double lot criteria:- Price candle must be below the moving average line and parabolic sar give sell signal with second dot. And active order of buy position.
[Moving Average Setting: Period = 100, shift= 0, MA Method = simple, Apply to = close]

Moving Average

0.50 lot sell

0.25 lot buy

0.15 Lot Size

0.30 Lot Size

DOUBLE LOT SIZE CRITERIA MEET
