

Project Name : Modification of alert parameter to a MT4 BB indicator

About the Indicator:

The Indicator will draw arrows when certain conditions are met.
Arrows are permanent (will not be repainted).
Arrows may appear more than once or none at all in a trading day.

Note : Arrow may appear /dissapear when bar is OPEN. When bar is CLOSE, then arrow becomes permanent.

TASK :

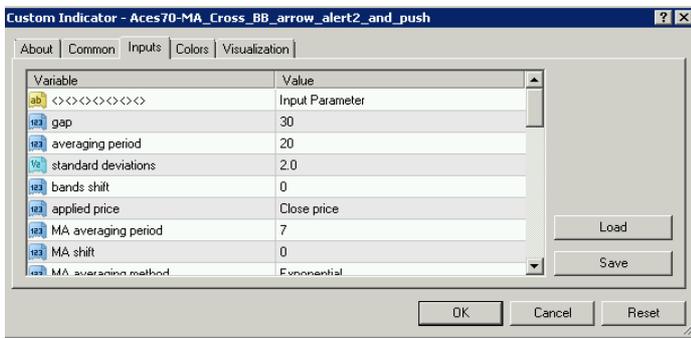

To modify the alert parameter with the following option :

Name of input parameter : Alert mode

- a) Alert once (only the 1st arrow that appear will be alerted in a trading day*)
- b) Alert all day (all arrows that appear in the trading day will be alerted)

* A trading day means starts from 00:00:01 to 00:00:00 (Hrs:Min:Sec) according to broker's time

Note : Please DO NOT change anything else.

Sample if alert once is selected
