

## 1 Page Short Description

This is MT4 platform. I can send you its setup file. You do not need to know using MT4 or not need to know trading on MT4. Don't worry about it.

line-1

line-2

line-7

line-8

OurOutputFile.txt - Not Defteri

Dosya Düzen Biçim Görünüm Yardım

42 32 ... 14155

.

.

.

.

.

38 45 1 3 14125

18 22 5 3 14120

.

.

.

and goes on

We will read 3 thigs. Table-1, Table-2 and PriceLevels.  
Means, 5 values for each line.

And write them to a txt file with a specific format

I don't know where does it store the values. You need to find it.

After you find and read(get) the values, then you will create a txt file as output.
