5a) News Reminder: (True / False) Default True

5b) Reminder before News: 1 Hour Default

5c) Closed trades: (True / False) Default True

If in Profit, 1 hour before HIGH IMPACT NEWS.

That is, news that are in RED, see the "PNG" Exhibits #5 for more information.

5d) 3 Minutes before & after Pending news: (True or False) Default True

5e) If there is, HIGH IMPACT news, on US news pairs, therefore, ALL RELATED US pairs, must be disabled, 3 MINUTES before the scheduled news time, and 3 MINUTES after the news time. Only on US related pairs.

If, the NEWS is either on USD, **GBP, JPY, EUR, AUD, CAD, CHF, NZD**. ANY one, of these combination, of these pairs, would be disabled, for 3 minutes before and after the scheduled news time.

A Pop up, would say: due to a high impact news schedule for "X" (time) today, you are being disabled for 3 minutes before and after the news.

And, you would receive the same notification from your email address as well.

6a) Email Trade notification: (True / False) Default False (See Exhibit 1)

Every time, I am 25 Pips in Profit.

Email would say: Congratulation, your Level 1 has been REACHED. (25 Pips)

Congratulation your Level 2, has been reached. (50 Pips).

Congratulation your Level 3, has been reached. (75 Pips)

Congratulation your Level 4, has been reached. (100 Pips). Etc. Etc...

as I will get 25 Pips in Profit more, I must continue to receive that email NOTIFICATION.

Once a TRADE IS CLOSED, now the email will say: Congratulation, you are completely out at LEVEL "X". (It may be Level 3, Level 4, Level 5, Level 6, Level 13, Level ??). It will say which pair, that you are out of. (For example, Congratulation, you are out of "GBPUSD" at Level 6) This would be, at whatever Level you are out of. It may be Level 4, Level 9, Level 18, etc.

Problem with it now. If the Ea is on, before you get the trade, the Ea currently keep on closing me at a LOSS, need to fix this.

8a) Ea WILL BE ON AUTOMATICALLY, ONCE ANY TRADE IS PURCHASED. EA, will disappear COMPLETELY from my GRAPH, once a TRADE is CLOSED. I don't even want to see ANY REMAINING HORIZONTAL LINES, that too MUST disappear from my GRAPH.
