

	Original indicator functions (mtf HL)	Improvement requirements	Remarks
a)	When candle closed above/below previous candle - sometimes alert, sometimes doesn't. And sometimes alert the wrong soundfile. Ex: candle closed above previous candle, SoundFileShort plays rather than long.	Please fix this bug	
b)	Arrow display not tally when candle closed above/below previous candle. It's like haywire display especially on mtf. Ex: Bull candle, down arrow shown and vice-versa.	Please fix this bug, bull candle associate with up arrow and vice-versa.	
c)	No mtf fractals alert.	Please include mtf fractal alert. PlaySound and Text alert once fractal is formed, changeable at Input.	
d)	Please use less PC resources and optimise the code.		
e)	Please provide .mq4 file at the end.
