DMStrategy

1-Indicators Using in the strategy:

  - demarker period 8

  - linear weighted Moving average

2-Instructions to buy:
    line at 20% or under for demarker
    line at 2700 or under level in linear weighted Moving average
    the 2 conditions must meet for buy If one only then no trade

3-Instructions to sell:
    Line at 80% or above for demarker
    line at -2700 or above level in linear weighted Moving average
    the 2 conditions must meet to sell If one only then no trade

4-Parameter requirement for strategy:
  - Parameter name DeMarkerPeriod: It's mean period for DeMarker indicator for example 8
  - Parameter name DeMarkerBuyLevel: It's mean Level buy in DeMarker indicator for example 0.2

- Parameter name DeMarkerSellLevel: It's mean Level Sell in DeMarker indicator for example 0.8
- Parameter name LWMovingPeriod: it's mean period for linear weighted Moving average for example 55
- Parameter name LWMovingBuyLevel: it's mean Level Buy in linear weighted Moving average for example -2700
- Parameter name LWMovingSellLevel: it's mean Level Buy in linear weighted Moving average for example 2700
- Parameter name FixedDistance : it's mean the distance between every trade
- Parameter name LotSize1 : it's mean lot size for the first trade
- Parameter name LotSize2 : it's mean lot size for the second trade if the first trade not achieved take profit
- Parameter name LotSize3
- Parameter name LotSize4
- Parameter name LotSize5
- Parameter name LotSize6
- Parameter name LotSize7
- Parameter name LotSize8
- Parameter name LotSize9
- Parameter name LotSize10 : it's mean open 10 trade if the first trade not achieved take profit
- Parameter name TakeProfitFirstTradePips: it's mean take profit for the first trade in pips but if the advisor open second trade the take profit will remove
- Parameter name TakeProfitAllTradeInAmount: it's mean take profit for all trades in amount for example if it equal 50$ then all trade will close in profit 50$
- Parameter name Comment: it's mean comment for every trade
- Parameter name MagicNumber

5-If the advisor open buy trade don't open sell trade until close all buy trades

6-When the computer restart i want the EA continue without any problem

7-I want source code for expert
