

Need an EA using **Compound Ratio Weighted Moving Averages** in MT5

Take a trade at the next bar for selected wave lines, then manage and follow trailing with that wave line

Need the following

Money Management / Fixed lot

TP / SL

Trailing Method: Fixed / percent / Wave Line

Fixed	Trailing Start
Fixed	Trailing Distance
Fixed	Trailing step
Percent	Trailing Start
Percent	Trailing Start
Percent	Trailing %

Trade Lines

Waave1	True/False
Waave2	True/False
Waave3	True/False
Waave4	True/False
Waave5	True/False

Trading Hours

Max Spread

Magic number and any other parameters which are relevant

If you have indicator, it is good, we can provide indicator also.

We need to get complete Source code and complete rights to EA after completion.

Simple EA, should be able to complete in few hours. Target 1 day. Fixed budget \$30
