

FX SCALPER X

HOW TO GET SET UP

STEP 1: GET A RAW/ZERO SPREADS TRADING ACCOUNT

This is the **MOST IMPORTANT STEP** in the whole set up process. One of the most important things when it comes to automated trading is giving the robot the best trading conditions possible!

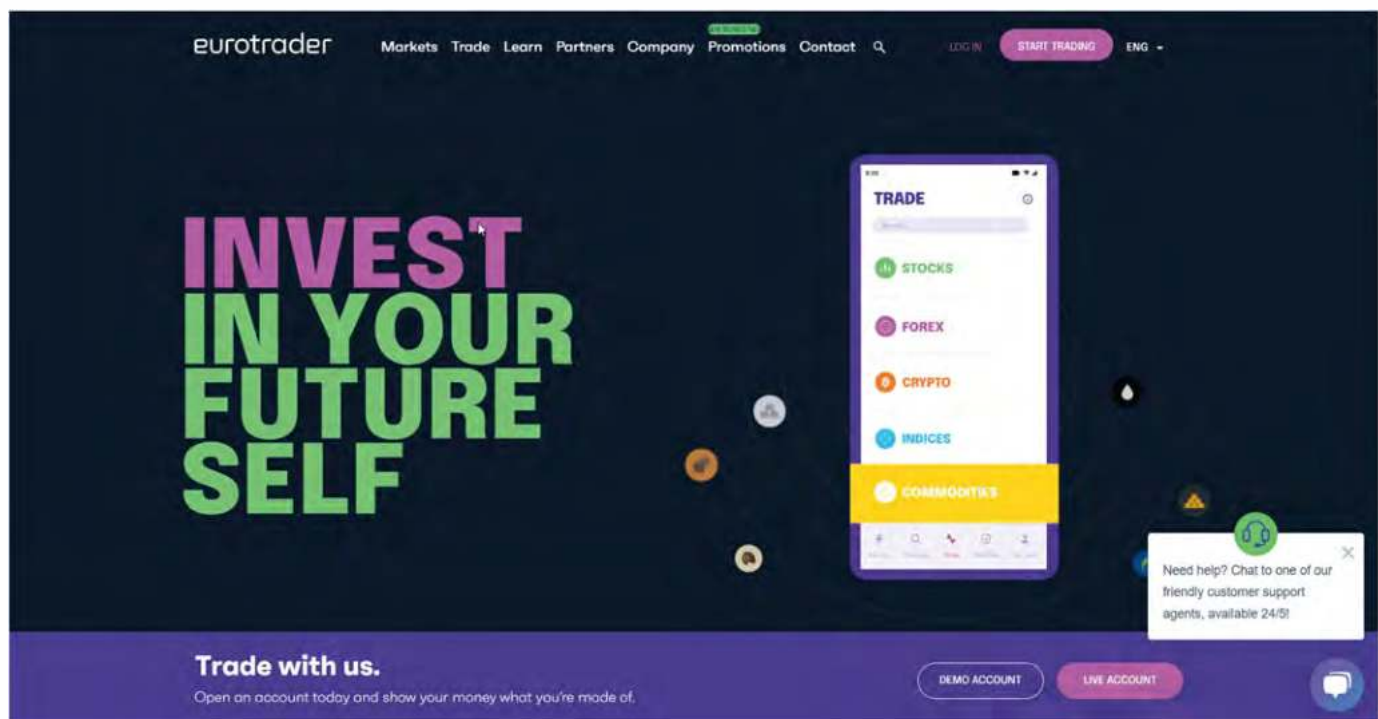

Our robots work with any broker and any account type but for the **BEST RESULTS POSSIBLE** it is recommended that you use our robots on **RAW/ZERO SPREADS ACCOUNTS!!**

BEST TRADING CONDITIONS FOR NON USA RESIDENTS

Eurotrader has very low spreads with \$5.5/Lot commissions. These trading conditions are very hard to beat.. Therefore they are the recommended broker for non USA residents. They basically have every withdrawal/deposit method available! They're also very reputable and trustworthy, we highly recommend using our robots on this broker

To the right of the text is a registration form with fields for TITLE, FIRST NAME, LAST NAME, EMAIL, and PHONE, and a green button labeled OPEN LIVE ACCOUNT.

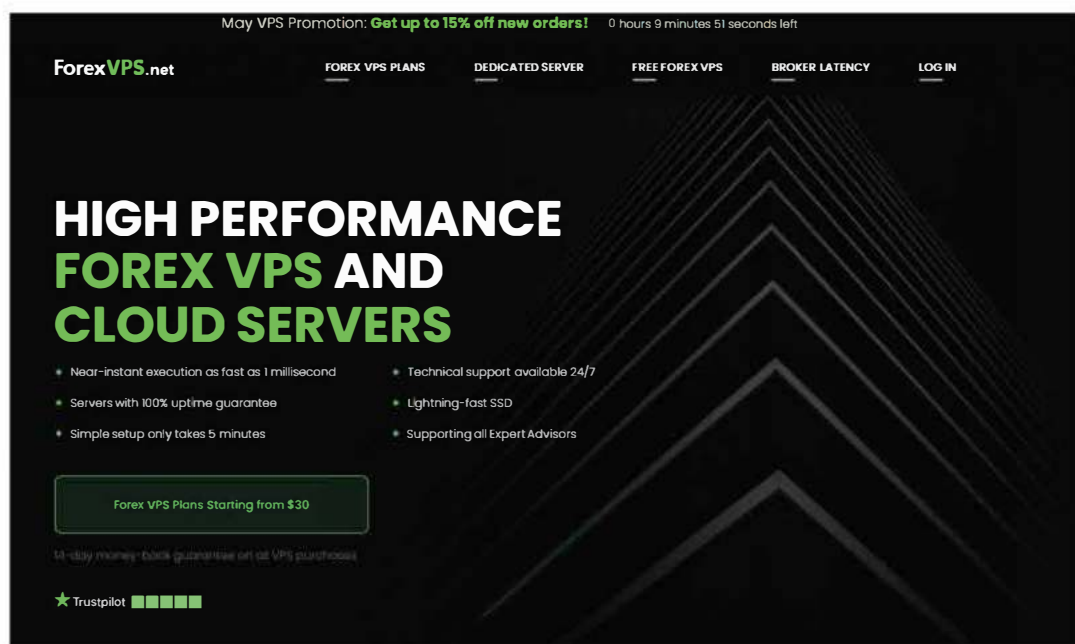

STEP 2: GET A VPS

The best vps service we have found thus far is **FOREXVPS**. We utilize a VPS to allow the Robot to stay on 24/7! This is very important!

FOREXVPS is super fast and we have never had any technical problems with them. They also have great support. This is the best VPS service out there in our opinion!

You guys can sign up for FOREX VPS here:
