# FX SCALPER X

**FX SCALPER X** is a hybrid EA that can be used for short term gains/withdrawals and also can be used as a long term EA to compound/grow your money. This EA is gains on auto pilot!

**Minimum Starting Balance:** 100

**Recommended Starting Balance:** 500+ The more you can start with the better

**Leverage:** At least 1:100 (1:500 recommended)

**Account Type:** Compatible with any account type but zero/raw spreads account is recommended for optimal results

**Pairs:** EURUSD - EURJPY - GBPUSD - GBPNZD - GBPAUD - GBPCAD -CHFJPY - NZDCHF - USDCHF - USDCAD

**Time Frame:** This EA is a multi-time frame, attach it to any time frame to start off and it will automatically adjust.. (See youtube video below for example)

Chart Installation: <https://youtu.be/quHreRl6vlw>

(Must install the EA on every pair that you're going to use (time frame doesn't matter))

**Settings:** Set files are provided. Please use the set file provided for every pair. If you don't know how to use set files please refer to the chart installation video.

These are the only settings you should edit at your preference:

**Use\_AutoLot:** This is the automatic lot sizes setting. When true automatic lot sizes is on. When false automatic lot sizes are off. We recommend leaving this on its already optimized for our recommended usage of the EA.

**Risk\_Mode:** The risk level for the automatic lot size setting. You have 2 different levels to choose from: standard and aggressive . Staying on standard is recommended, but it's up to you at the end of the day.

**Trade LotSize:** This is the fixed lot size setting. To use fixed lot size Use\_AutoLot must be set to false. After you set Use\_AutoLot to false input your desired lot size in the Trade LotSize setting

**Use\_LotMultiplier:** If false lot sizes will never be multiplies when adding new positions.

**Stop Trading When Equity Goes Below This Value:** If your equity falls below whatever number you put here the EA will automatically close all positions and shut off

**Set to True to Stop Trading After The Last Trade Closes:** If true the EA will not automatically open a new trade after the previous one closes. It will stop trading after the last/previous trade closes.
