There are different phases in requirements for mastering the Pocket Option OTC and acquiring different BOTS to bypass the Pocket Option OTC markets.

PLEASE, this is Binary Options, NOT Forex. Binary Options only! Please I want different and all time period charts for these OTC markets; These includes micro time frames like 5 seconds, 10 seconds, 15 seconds, 20 seconds, 25 seconds, 30 seconds, 35 seconds, 40 seconds, 45 seconds, 50 seconds, 55 seconds, 60 seconds, and seconds in between. Check out this video;

<https://www.youtube.com/watch?v=1AsXElgOWg0>. It's a Custom Timeframe Generator for regular markets (Note: this is just to give you an idea of what I'm looking for.) which includes seconds charts. I'd want this Custom Timeframe Generator for Pocket option OTC; which includes any and all seconds charts.

Summary; I want all 104 Pocket Option OTC Markets on the MT4 platform with all available timeframes; including micro timeframes. Basically a combination of
