
Market Scanner Update

If you want to keep the indicator and the market scanner working, performing and efficient, you must always use the latest update released.

But how to do it?

On mql5 you can update Only the indicator.

For update both, the Indicator and **Market Scanner** you have to do it from our website

<https://darktrading.biz/>

You simply have to add the product to the cart and register, creating an account, then, you can download the latest version whenever you want!

Without having to contact me!

Important Recommendations

For all Expert Advisor an ECN broker is strongly recommended, you can use:

<https://icmarkets.com/?camp=59565> or <https://roboforex.com/?a=syok>

Having low spreads is very important, a high spread, can totally compromises your trading, it can transform winnings into ->->->-> losses

If you use EA or Indicator Alerts, your platform must also remain open 24 hours a day, to make the robot work properly

So, for all Expert Advisor a high quality and low latency windows VPS is strongly recommended, you can use: <https://dipgate.com/aff.php?aff=2>

The VPS is a sort of small computer, totally online, check this 1 minute example video for access to your new vps: https://youtu.be/jnp4_hXt11E

Thank you very much for your attention.
