## **Rotational Hedge System**

The basic concept of the rotational hedge system is to hold 3 open orders untill a large open profit is acheived by using weighted hedging on a single pair. There are 3 basic money management systems. That can be applied. This style of hedging should be used on pairs that trend well. In uncertiant markets the system sets up weighted hedges to attempt to be on the right side of the market when the breakout occours.

MM System 1 Passive equal lot sizeing.

Equal lot sizing is effective but to use it you will not be able to take profit. On all large moves as you will need to maintain a weighted hedge at all time. On the equal lot sizing method the danger is apparent when the second order is placed and a lock hedge is acheived while waiting for the third order to fire off.

MM System 2 Slight Agression lot sizeing.

This is a simple way to produce a weighted hedge with a 50% ROP at all times that 2 or more orders are open. The sequence is as follows. 1, 2, 3, 3, 3, 3 The first two orders are smaller to setup the hedge without generating a lock hedge.

## MM System 3 High Agression Lot Sizing.

This money management system way to produce a weighted hedge. With a ROP above 50 percent. Keep in mind with higher agression comes greater risk. The lot sizes are calculated by mutiplying the slight agression lot sizes by X. 1x, 2x, 3x, 3x, 3x, 3x

The following pages will demonstrate all three money management systems using a 3 50 EMA cross on the British Pound 4 hour chart. To keep it simple I will use a mini account to keep round dollar amounts for gagueing profit and loss. In addition the examples will use improper exiting methods.

۲

( )

MM system 2 Slight Agression

Open Order 1 Short 1.9588 Lot size 1

Open Order 2 Long 1.9678 Lot size 2

Open Order 3 Short 1.9655 Lot size 3

Open Order 4 Long 1.9739 Lot size 3 Order 1 closed @ 1.9739 Pipcount 151 Dollar amount -\$151

Hedge Set Final exit 1.9930

۲

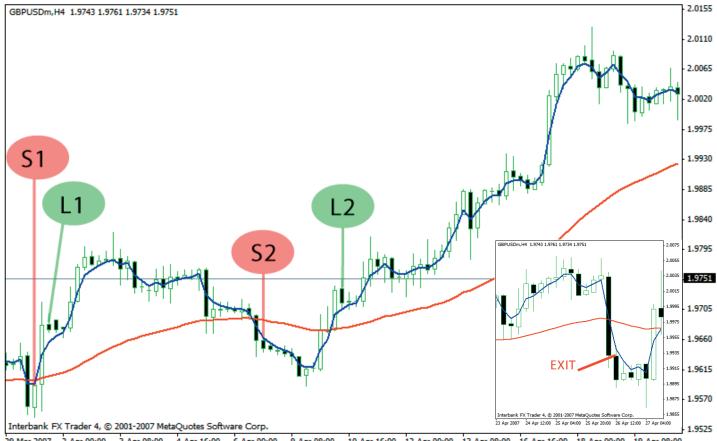

Close all open orders Orders 2, 3 and 4 Profit and loss per order.

Order 2 Pipcount 282 Dollar amount \$564

Order 3 Pipcount -275 Dollar amount -\$825

Order 3 Pipcount 175 Dollar amount \$525

Set Total Profit \$113
