

1 M EURUSD Scalping Strategy

Following are the chart set up with indicators

1. 10 EMA(close) with any suitable colour
2. Bollinger bands with 18 Deviation 2 period, close and zero shift
3. PSAR step 0.018 and Max 0.08
4. MACD with default settings but close value
5. RSI 14 period close with level 50

Set up the chart and only try to trade the first three hours of any trading session. try to stick only to EURUSD pair as this strategy will work in better way.

BUY WHEN

1. when 10 EMA crosses above middle of BB
2. MACD is above zero line
3. RSI is above 50
4. Use PSAR as only visual trend direction aid.

SELL WHEN

reverse whole procedure from above.

Please keep 10 pip stop loss and and profit 5 pips and above. some time you will catch bigger trend as well.
