

Free Forex Robot

(this product is a free robot from the open Forex sources – support for this product is very limited, please DIY)

Any automatic trading software **MUST** be tested on a demo account prior to real trading. Doing this you will get familiar to the software and its settings, and will avoid many further inconveniences.

How to:

This Automatic trading software is designed to be used on two currency pairs EURO/USD and USD/CHF simultaneously. Best results will be achieved with 1 minute timeframe.

How to setup your new forex robot (Expert Advisor)

1. Find "experts" folder on your hard disk where MetaTrader 4 software is installed. Example: C:\Program Files\MetaTrader\experts
2. Paste ROBOT.ex4 file into the "experts" folder
3. Find "indicators" folder on your hard disk where MetaTrader 4 software is installed. Example: C:\Program Files\MetaTrader\experts\indicators
4. Paste Silence2_02.ex4 file into the "indicators" folder
5. Run MetaTrader 4 software; -connect to your DEMO account; -open two chart windows: EURUSD,M1 and USDCHF,M1; -attach robot EA to both charts; -allow live trading to both EA; -turn ON expert advisors.

NOTE: Both instances of robot should have different "Magic Number". It can be set up in the robot properties.
