Install Forex Insider on your PC or Laptop

Step 1: Execute the installation file and wait while the operating systems checks compatibility, required disk space and prerequisites. Note: Before you start with the installation, make sure that all Meta Trader 4 terminals are closed.

Step 2: Click the 'Next >>' button to start the installation process.

Step 3: Read the EULA (End User Agreement - License terms and conditions) carefully. Note that you must agree to the license terms and conditions before you can install Forex Insider.

Install Forex Insider on your PC or Laptop

Step 4: Specify (Checkmark) the Meta Trader folder(s) where you would like to install Forex Insider. Then click again on the “Next >>” button.

A screenshot of the "Select Destination Folder" dialog box. The dialog has a blue sidebar on the left with the "Forex21" logo. The main area has a title "Select Destination Folder" and a subtitle "Please specify where the wizard should put the program files." Below this, it says "Please specify the MetaTrader main folder where you would like to install Forex Insider. This wizard will check plausibility of your MetaTrader folder before you can continue. Hint: Choose the folder where you have terminal.exe." There is a list box with three items: "C:\Program Files (x86)\FXPRIMUS - MetaTrader...", "C:\Program Files (x86)\MetaTrader 4 FinFX", and "C:\Program Files (x86)\MetaTrader 4 IC Markets". Each item has a checkbox to its left. Below the list box is a button labeled "Add MetaTrader Folder". At the bottom of the dialog are three buttons: "<< Prev", "Next >>", and "Cancel".

Step 5: Click on the “Next >>” button to install Forex Insider.

A screenshot of the "Ready to Install" dialog box. The dialog has a blue sidebar on the left with the "Forex21" logo. The main area has a title "Ready to Install" and a subtitle "We have all the information needed to install the program." Below this, it says "Please review these information below. Click on Prev button if you want to make a correction. When you are ready to continue, click Next button." There is a list box with three items: "Product to Install: Forex Insider v1.1.0.0", "Target Folder(s) C:\Program Files (x86)\MetaTrader 4 IC Marke", and "Program Folder". At the bottom of the dialog are three buttons: "<< Prev", "Next >>", and "Cancel".

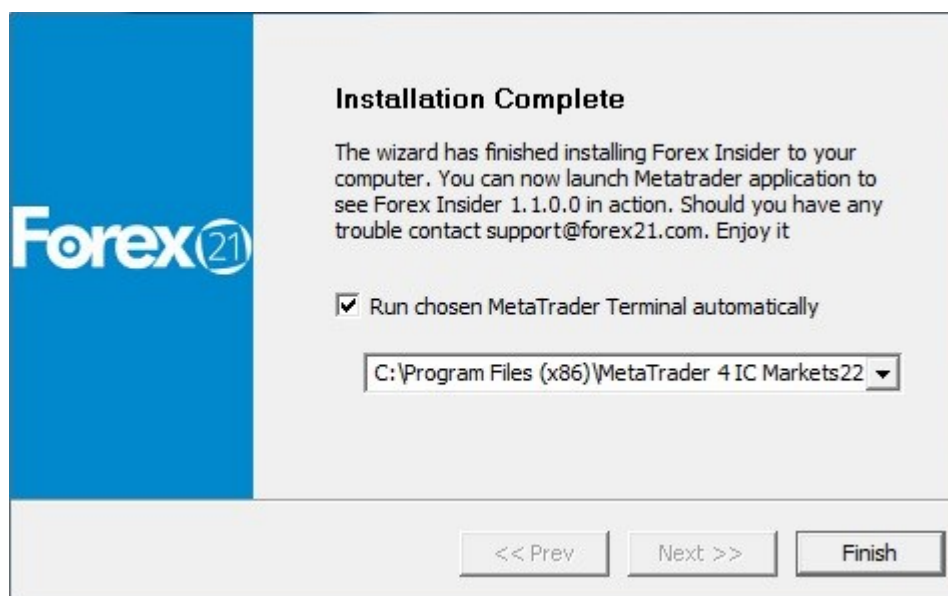

Install Forex Insider on your PC or Laptop

Step 6: Wait while the installation wizard copying the files and create the uninstaller, then click “Next >>”.

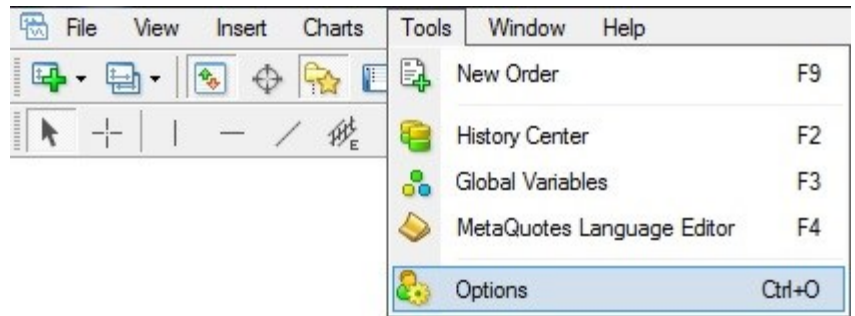

Step 8: To finish the installation click on the “Finish” button.

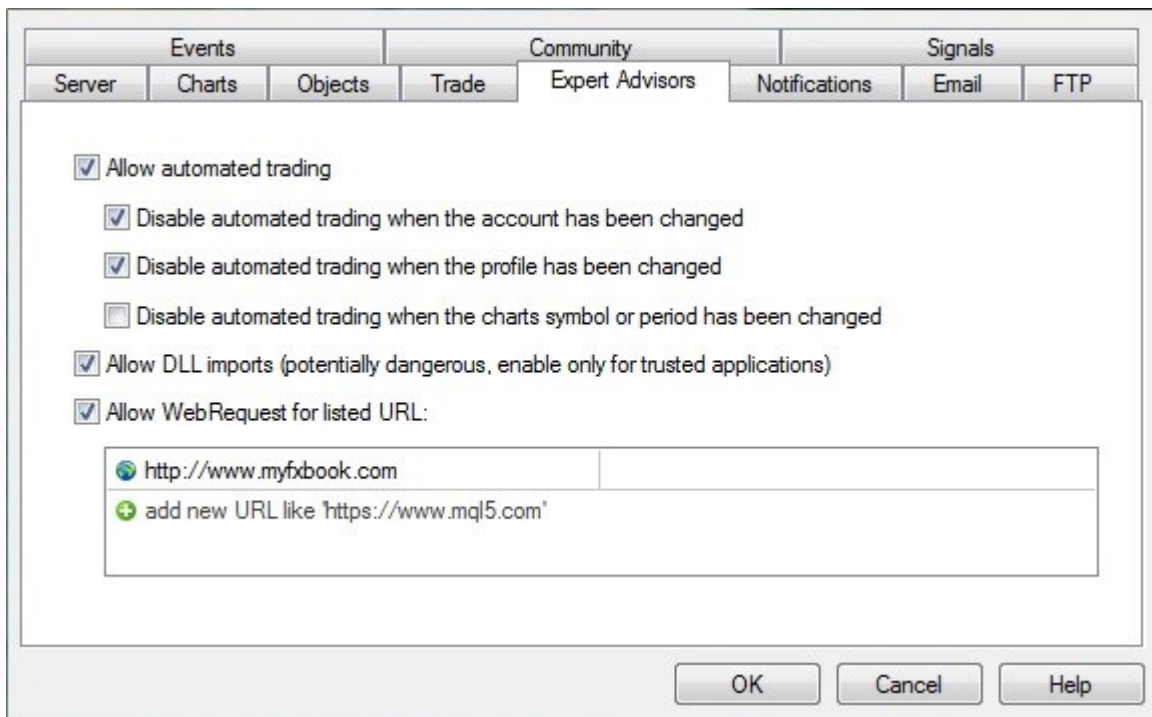

Allow Web Request for <http://www.myfxbook.com>

Forex Insider uses community outlook data from myfxbook.com. That Forex Insider can work properly, you will need to add the following URL to the “Allow Web Request for....” list.

Click on the “Tools” tab and then click where stands “Options”. Optional, you can press CTRL+O on your keyboard.

Enable web requests (checkmark) for listed URLs and add “<http://www.myfxbook.com>” to the list. When ready click the “OK” button.

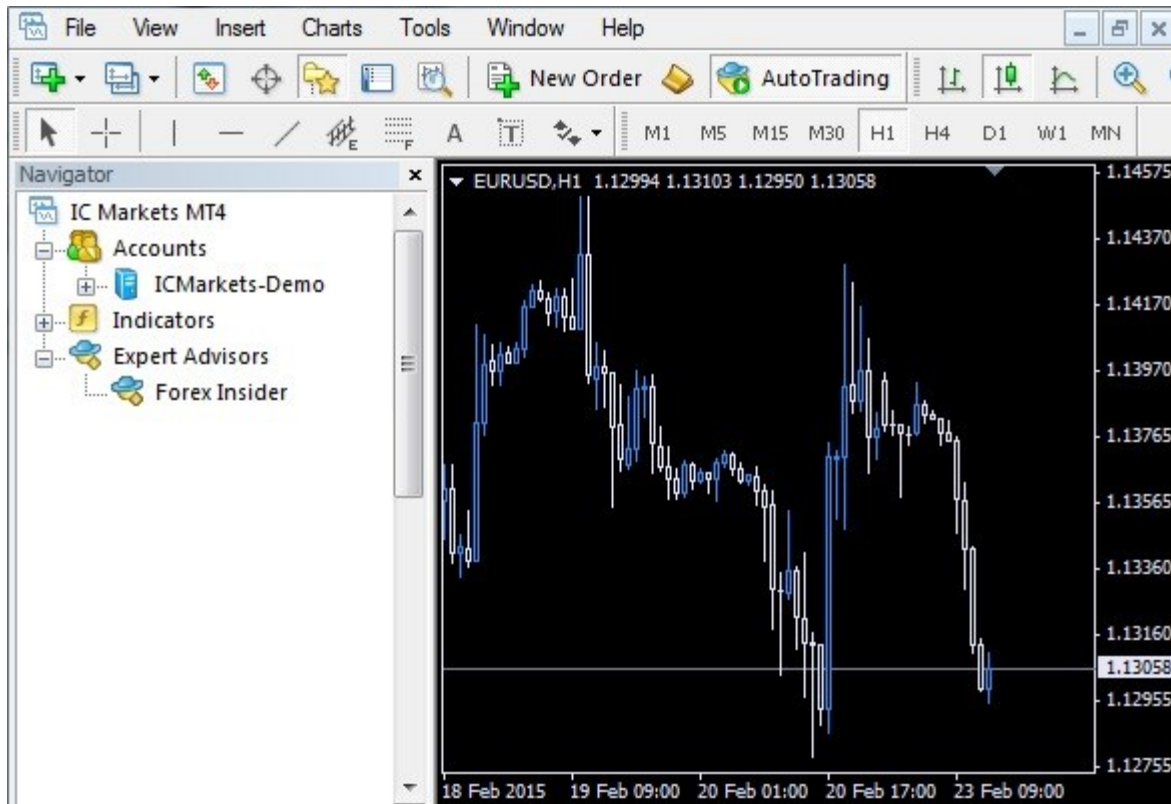

If you don't have a MyFxBook account yet, simple follow this link: <http://www.myfxbook.com> and create a new account. It's free and takes just two minutes.

First Steps

Attach Forex Insider to the Chart

To attach Forex Insider to the chart simple drag and drop the EA from the Navigator Window to the chart of your choice. Optional, click on the left mouse button and select “Attach to Chart”.

Type in your MyFxBook login credentials

As mentioned earlier, Forex Insider uses API data from MyFxBook. To get access to the API, you will need to type in your MyFxBook credentials. Please note that your login data will be only used to access the API data and will be not accessible to anybody else. See also: <http://www.myfxbook.com/api>

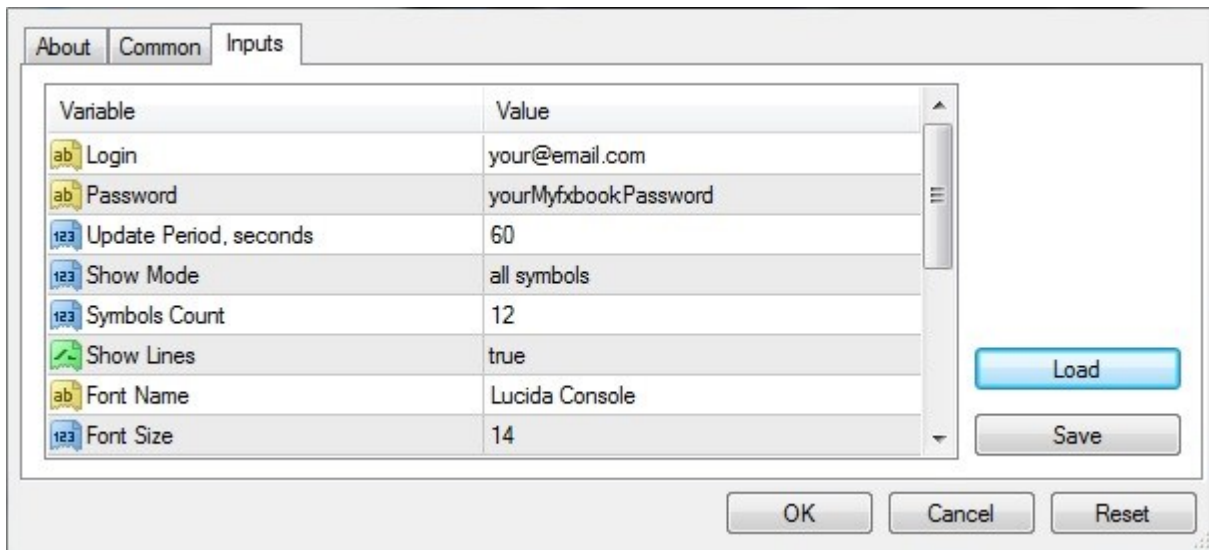

Variable	Value
 Login	your@email.com
 Password	yourMyfxbookPassword
 Update Period, seconds	60
 Show Mode	all symbols
 Symbols Count	12
 Show Lines	true
 Font Name	Lucida Console
 Font Size	14

Load and Save Set Files

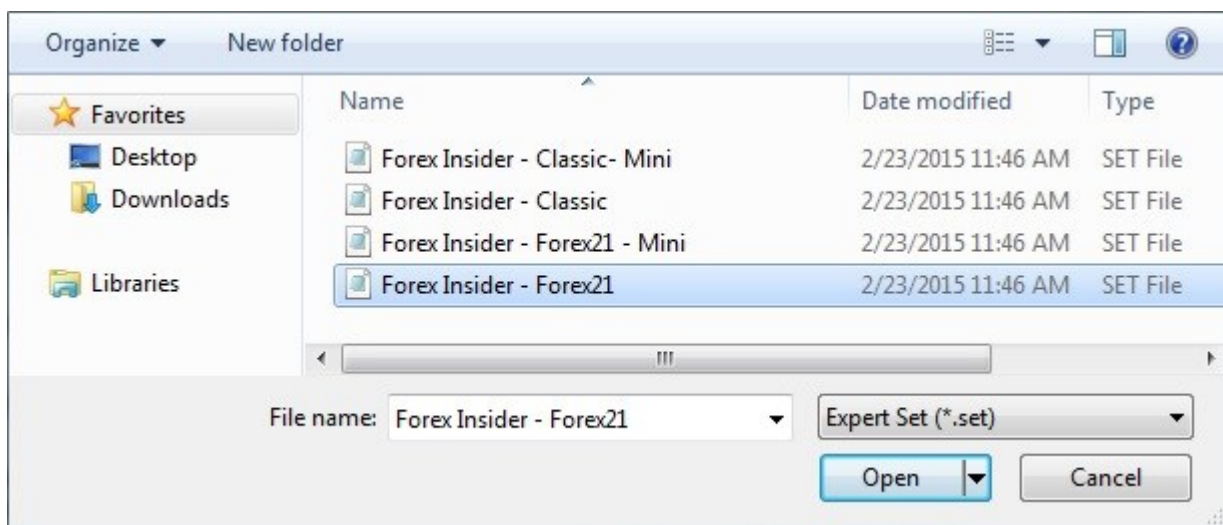

To avoid typing in the MyFxBook credentials every time when you attach Forex Insider to the chart, we recommend to save them in a set file.

As all parameters are fully adjustable, you can customize the look of Forex Insider according to your personal preferences. Full information and description about all parameters can be viewed here: [Parameter Description](#)

To load an existing set file or one of the four preset files, click on the “Load” button and select the set file which you would like to load.

To save a set file, click the “Save” button. In the new window you can specify a name (file name) for the set file. After clicking again on the “Save” button, the file will be saved and can be loaded as described above.

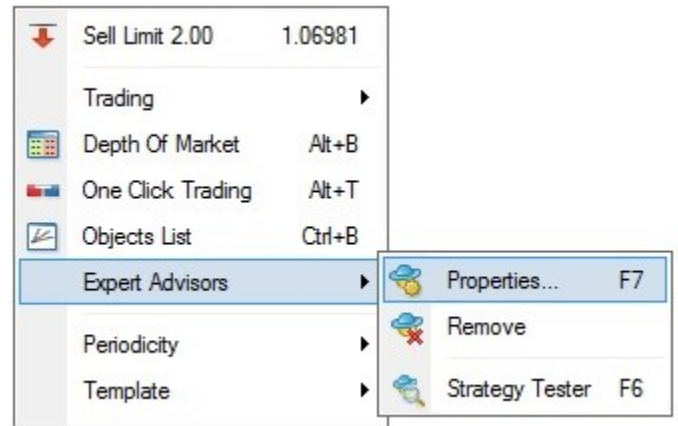

Warning and Error Messages

Wrong email/password.

The message is shown when the MyFxBook login credentials are incorrect or missing.

Solution: Go to the Expert Advisor properties and update the login credentials.

ab Login	your@email.com
ab Password	yourMyfxbookPassword

Parsing error.

This message is shown when something went wrong during the parsing process.

Solution: No action is required. Forex Insider will retry to parse the data automatically.

No access to Myfxbook.

This message is shown when the Expert Advisor could not connect to MyFxBook. Possible reasons are:

- 1) The MyFxBook server is temporarily not available.

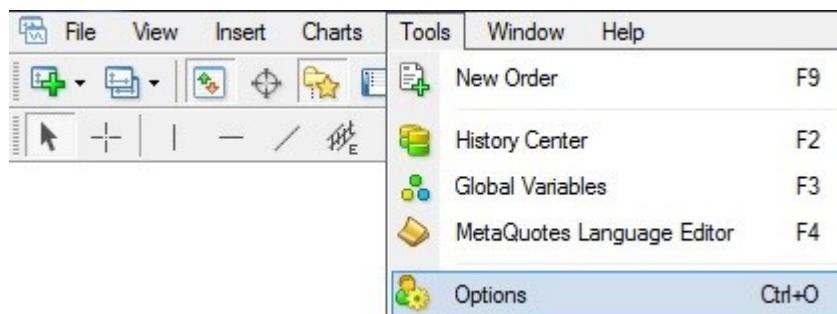

Solution: If there server is down (happens rarely) all you have to do is to wait until their website and/or API becomes again available.

- 2) Your Computer is not connected to the internet.

Solution: Try to reconnect to your local network. If it does not work, ask your internet service provider for assistance.

- 2) You didn't add the MyFxBook domain to the "Allow Web Request for" list.

Solution: Go to "Tools" > "Options" and add the myfxbook.com domain to the list. See also: Allow [MyFxBook Web Requests](#)

How can I use the data for trading?

Forex Insider provides you with detailed information about what other retail traders are doing. Seeing it as strategic game, this knowledge allows you to outsmart other traders.

Examples:

- ♦ If you believe that the majority of traders are correct, you can use the information to follow the “crowd” and place your trades accordingly.
- ♦ If you believe that the majority of traders are incorrect, you can use the information to find trading opportunities where it is very likely that the market will turn because the price is heavily oversold or overbought.

How accurate are the data?

All data are from verified live trading accounts only and are very accurate.

Do I need an MyFxBook account to use Forex Insider?

Yes. Otherwise Forex Insider will be not able to access the MyFxBook API. If you do not have a MyFxBook account yet, simple visit their website and create an account. It is free and takes not more than a few minutes.

Whether you have a question about Forex Insider or would like to provide us with your feedback or testimonial. We are here for you and would love to hear from you. [Contact us.](#)

Risk Disclaimer

Currency trading offers large profit potential, but includes also large risk potential. Therefore, currency trading on margin is may not suitable for all individuals. The high leverage offered on the currency exchange can work against you as well as for you.

By using software from Forex21 you agree to hold Forex21 and everybody who is involved in developing, production and distribution free from any responsibility. Any live trading you do, you are doing at your own discretion and risk! Before you make investment or trading decision, it is important that you inform yourself carefully about the opportunities and risk. This includes not only financial aspects but also legal and fiscal ones. Before you get started with trading in the foreign exchange market, you should consider your trading and investment goals, objectives, trading experience and your personal risk tolerance. You should be also aware of the existing possibility of losing some or all of your equity. For this reason, it is highly recommended that you invest only funds you can afford to lose. Make sure you are aware of all possible risks associated with trading currencies on margin online. If you have questions or concerns, you should contact an independent financial advisor.

CFTC Rule 4.41

HYPOTHETICAL OR SIMULATED PERFORMANCE RESULTS HAVE CERTAIN LIMITATIONS. UNLIKE AN ACTUAL PERFORMANCE RECORD, SIMULATED RESULTS DO NOT REPRESENT ACTUAL TRADING. ALSO, SINCE THE TRADES HAVE NOT BEEN EXECUTED, THE RESULTS MAY HAVE UNDER-OR-OVER COMPENSATED FOR THE IMPACT, IF ANY, OF CERTAIN MARKET FACTORS, SUCH AS LACK OF LIQUIDITY. SIMULATED TRADING PROGRAMS IN GENERAL ARE ALSO SUBJECT TO THE FACT THAT THEY ARE DESIGNED WITH THE BENEFIT OF HINDSIGHT.
