## Expert Advisor

is a fully automated EA developed for the highly volatile gold market (XAUUSD). It is based on *XpertAI technology* and generates several signals per week, utilising an intelligent strategy with dynamic profit distribution and adapting **perfectly to market volatility** even in challenging market phases.

# GoldXpert

## *XAUUSD- Metal Strike*

The *Metal Strike* strategy is designed to trade these movements in a targeted and decisive manner - like a precise strike with maximum effect. These characteristics make it an ideal candidate for **Daytrading**, as **medium to long-term movements** can often be mapped by clear technical patterns and fundamental triggers.
