

Gold Miner Strategy.

1. Wait for Signal (blue & Red circles).
2. Wait for Candles lose Momentum (Show weaknesses).
3. **Buy**: Wait for Green APB candle close & Place **Buy** order.
4. **Sell**: Wait for Red APB candle close & Place **Sell** order.
4. Put Stop lose above +2Pip Swing High for **Sell**. (you can also cut lose trade on Green apb candle)
5. Put Stop lose below -2Pip Swing low for **Buy**. (you can also cut lose trade on RED apb candle)
6. When trade reach 1:1 RR put SL to Breakeven and close partials.
7. Closing partials depend on you. I close 70-80% of trade and let the profit Run for 1:3 RR. (you can also close profit on Opposite apb candle).

AUUSD,M5 3418.02 3418.27 3416.44 3418.04

Strategy .

- 1: Wait for Signal when appear just Ready .
- 2: wait for Candles Lose Momentem
- 3.wait for print Opposit APB candel
- 4.Put Stop lost at High
5. Target 1:1 then Close Partials _Move Stoplose to Braek Even till 1:3 RR.

Tips:

- Shift to Bar Chart for Clear open & Close of APB Candles.
- Avoid very Big Candles.
- Wait for opposite Candle appear
- Let The profit RUN.
- Do not Drag the Stop lose (Only for breakeven after 60% move)
- If Market Ranging near you target or strong Resistance Area Just Take the Profit.
(Opportunities always Come Next)
- Max 2 trades /Day
- Max 2 Pairs (Xauusd, Nasdaq, Us30 like)
- Max 0.5% Risk for Prop Firm Trading and 1-3% risk of Balance for Broker based Accounts.
- Follow one Session (which suitable for You) and Stick to it.
- **Keep it Super Simple** (do not influence with Social signal groups or anything, Just Trust the Sys/Strategy.
