

## CENTS ACCOUNTS

Why and when do you need a cents account?

1. A cents account is used when you want to test a system and don't want to risk a lot of money.
2. If you are trading martingale systems a cents account is perfect as the lot sizes can multiply quite fast and you may need a lot more margin than you have bargained for on a standard account.
3. For a standard account you need at least \$3000 per currency pair but for a cents account this is only \$30 which is 3000 cents. Of course you will not make as much money but you will get to know how the EA is working before you start a standard account.

Cents accounts work exactly as normal standard accounts except 0.01 lot is one cent while in a standard account 0.01 is ten cents. If you open a cents account with \$100 then you will get 10 000 cents (just add another two zero's).

If the rule for martingale is to use on a standard account \$3000 for initial lot of 0.01, then this also applies to cents accounts. Use 0.01 for every 3000 cents. The EA will handle it exactly the same, it does not know that the lot size of 0.01 has a different value because it is a cents account. You just have to learn how to count your profits because 2000 profit will be \$20, just subtract two zero's to get the dollar value.

### Example of a cents account:

**Profit/Loss: 11 518.31 Credit: 0.00 Deposit: 18 160.00**

In above screen shot you will see a deposit of 18 160.00 cents, that is actually \$181.60

The Profit is 11 518.31 cents which is \$115.18

1341337956	2023.08.25 17:31:04	buy	0.01	eurusd	1.07849	0.00000	0.00000	2023.08.25 19:39:49	1.08001	0.00	1.52
1341338196	2023.08.25 17:31:24	buy	0.02	gbpusd	1.25688	0.00000	0.00000	2023.08.25 18:35:46	1.25799	0.00	2.22
1341346841	2023.08.25 17:58:49	buy	0.02	gbpusd	1.25487	0.00000	0.00000	2023.08.25 18:35:46	1.25798	0.00	6.22

A profit of 6.22 is actually 6.2 cents and not \$6.22, so you have to divide it all by 100!!

Remember that a broker like RoboForex offers cents accounts with different minimum lot sizes in mt4 than mt5. On mt5 the minimum lot size is 0.01 and on mt4 the minimum lot size is 0.1.

If you make use of author Strukov's offer to open an account with RoboForex using affiliate code "twds", then choose a cents account if you are going to use a martingale EA as \$500 will not be enough for a standard account.

#### RoboForex cents accounts:

mt5: minimum lot is 0.01

mt4: minimum lot is 0.1

Please send me the account number. The EA will be coded for your TWDS account number and **will only work on that account number**, not on any other account (also not on a demo you may request for a demo).

Let me know if it is mt4 or mt5

Send me a list of the EA's you want, take note that these EA's are martingale and it is better to use a cents account as you need about 3000 per chart but for Network you can start with \$500

(Please remember that author will first check if your account number is on his affiliate list. It takes time to code every EA for your specific account number and if you open an account with \$500 then obviously it will be impossible to run every EA's on that account. So think about this and plan your system before making your request. Remember that every time you change account number you have to use the TWDS code again and request author to code EA for new account number.)

**b) Discount on a good and fast, reliable vps!!**

**SPECIAL PROMOTION ON THE BEST AND FAST VPS! GET 5% DISCOUNT!**

**c) Buy one EA/Indicator and get another one free!**

You are welcome to have one free gift for every one EA you bought. Please send me the screen shot of your purchase. You will then qualify for your gift. Please let me know what other EA or indicator you want and send the following information (you can also use my telegram address here:

@vstrukovEA or @Dkmillion)

1. Send EA/Indicator you want
2. Send maximum of 2 metatrader account numbers so that I can code it for your account
3. Let me know if it must be coded in mt4 or mt5

d) **Cashback for rebates on spread!!**
