(source of data).

Business Sellers are also business certificate  
verified.

MQ may flag reviews: (1) posted by seeding  
Sellers, (2) posted by new Community members,  
(3) when price drops substantially, (4) when paid  
changes to free, (5) when free changes to paid,  
(6) due to inactive members, (7) due to user  
deleted content, (8) determined to be spam,  
(9) due to violations of mql5.com terms, or  
(10) due to a substantial change in an EA's  
trading logic. (MQ's actual ranking is secret).

Flagged Reviews and EA's with zero Reviews  
show Stars as "n/a" in this list.

Anomalies such as 15 Reviews with 0 Stars are  
not typo's in this list. Source data is not altered  
although this list contains manually entered,  
reformatted, and aggregated source data.

EA's are sorted first by Stars and second by  
Reviews.

Non-zero Reviews with 0 Stars are invalid.

4741 of 5848 EA's have 0 valid Reviews.

Only Buyers can post Reviews. Trial/Demo users cannot post Reviews.

EA's that have been removed from the Market while composing this list are shown as "delisted."

Only the first price for each EA is in this list.

EA listings in the mql5.com Market can't be sorted like this list is sorted.

This list is not automatically updated.

Sellers are not required to post a full backtest report. An example of a full backtest report follows this list, (History Quality displays 0 because the EA runs on a custom chart connected to an M1 chart).

If you're a Seller and any data in this list is missing or inaccurate, please contact Ryan L Johnson at Silk Road Trading, LLC.
