

Welcome to the PBF Momentum Installation Manual

Installation of the PBF Momentum is fast and easy.

We have designed it to be installed instantly on any number of MetaTrader 4 applications on your PC in just a few clicks.

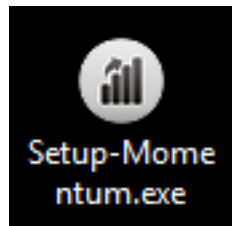

In order to get started, please do the following.

- 1) Download the installation package from our Download Page at:

<http://paintbarforex.com/tools>

Click the **PBF Momentum** link with your right mouse button and select "Save Link As...", "Save As..." etc. to your Desktop.

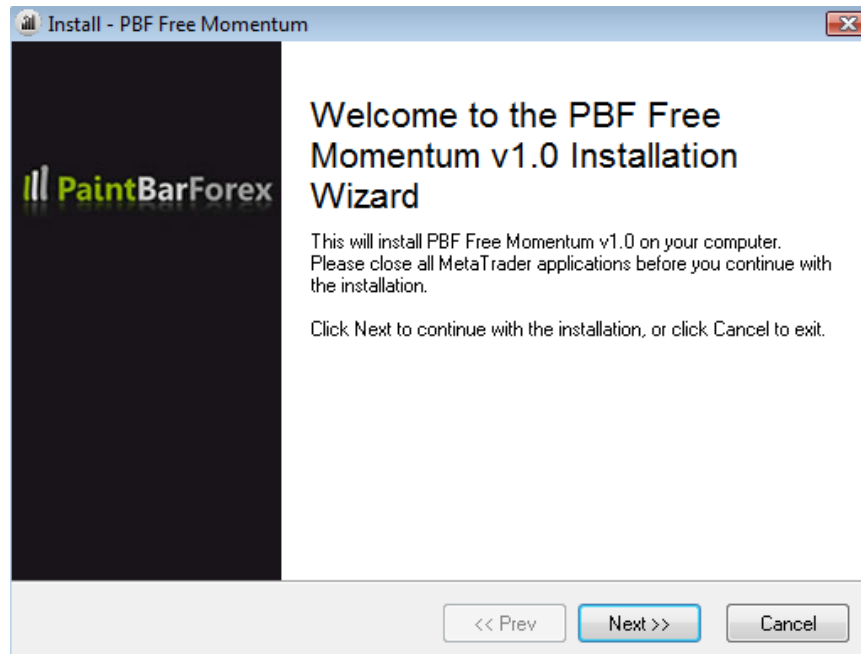

- 2) Navigate to your Desktop. The file is called "Setup-Momentum.exe" and looks like the image below:

Double click the icon and the installer will launch.

Continued on next page...

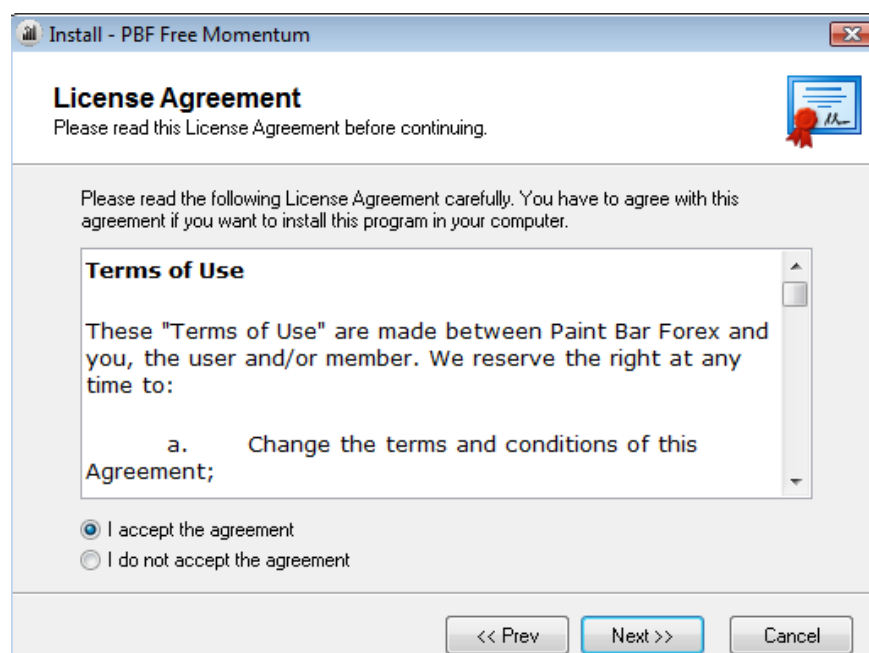

3) The installer looks like this:

Click "Next".

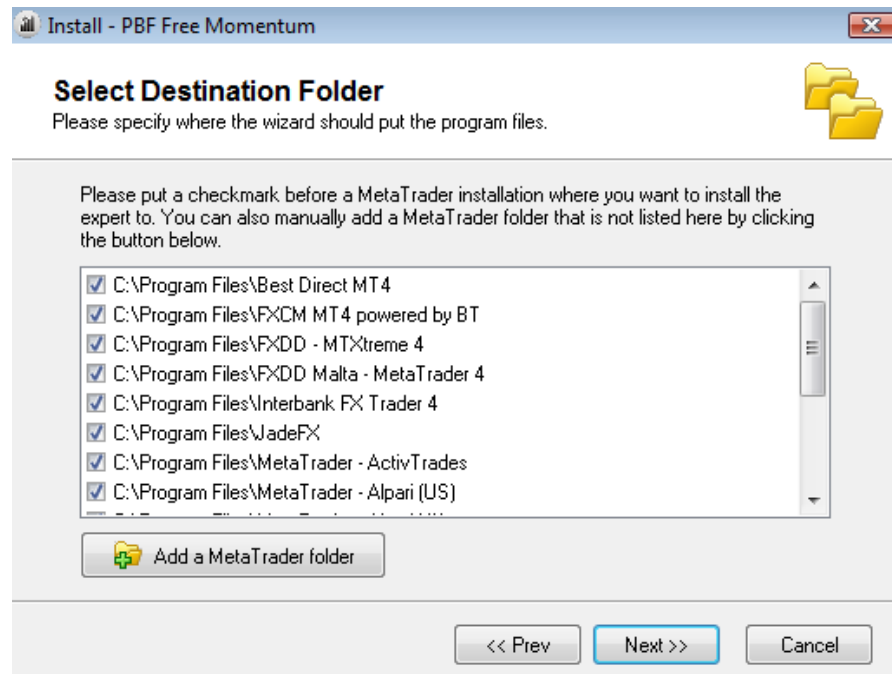

You will then be shown the Paint Bar Forex Terms and Conditions of use.

4) Please read the agreement carefully and if you agree to the terms, please click "I accept the agreement":

Click "Next".

- 5) On this screen you can choose to install the application to as many MetaTrader 4 instances as you wish.

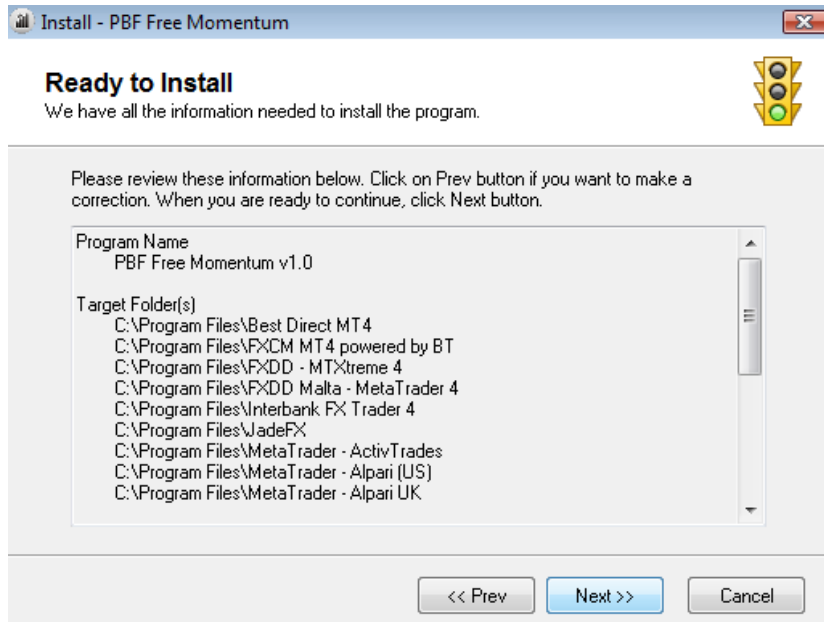

- 6) Tick as many as you wish to install into.

Advanced Users: If you MetaTrader installations are not in your Program Files folder, you can manually select the locations of MetaTrader and add these as required.

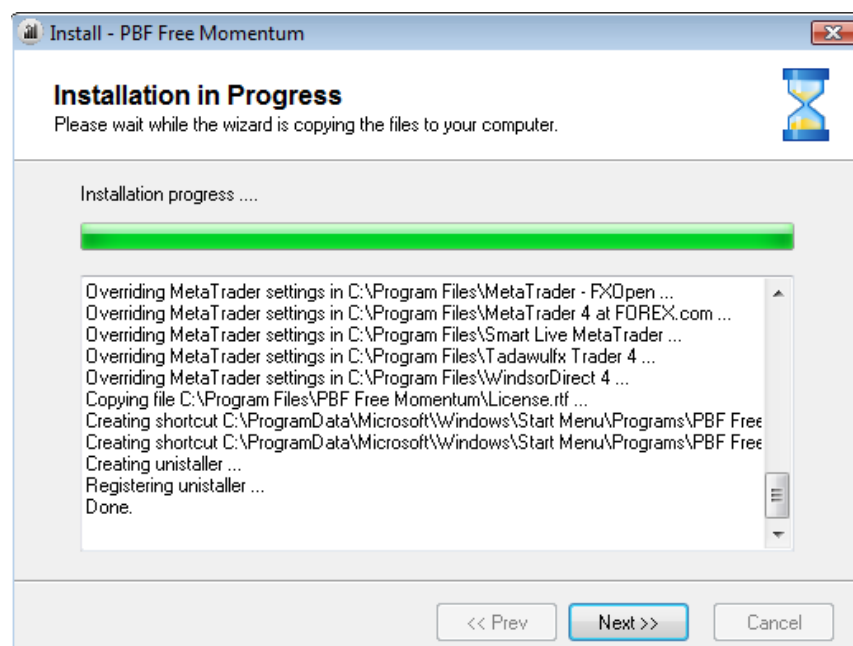

- 7) Once you are ready, click "Next".

Continued on next page...

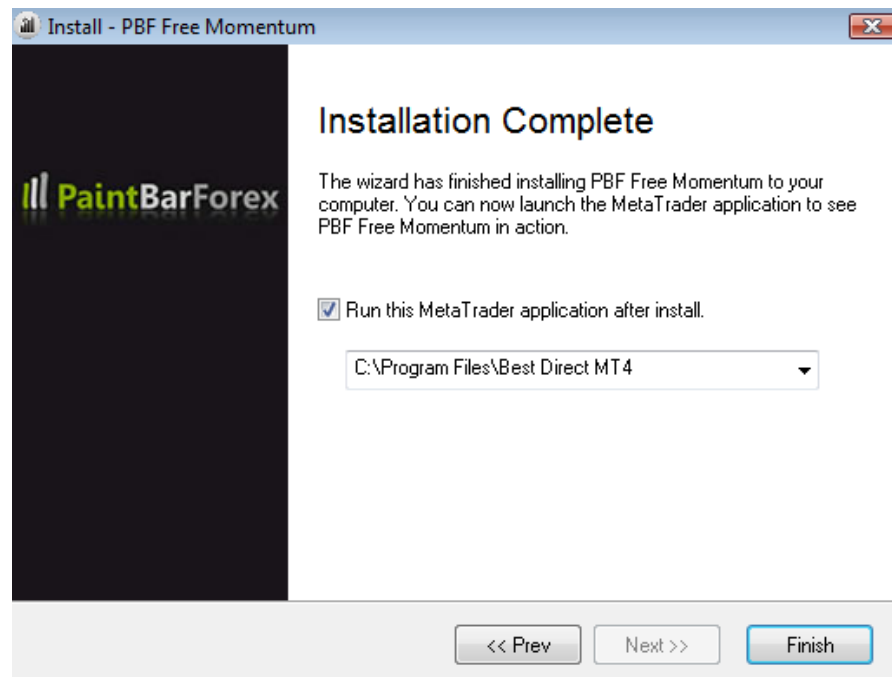

- 8) The Installation Wizard is now ready to install your PBF Momentum indicator. Review your installation choices and click Next if you are ready. Click "Prev" to change your choices before installation.

- 9) The Installation Wizard will now install the PBF Momentum for you. When the installation is complete, you will be prompted to click "Next" – please follow this step to complete the installation.

- 10) The installation is now complete. You can choose to launch a MetaTrader instance by ticking the box and selecting one from the drop-down menu for your convenience. Click the "Finish" button to exit the installer.
