SpeakTrades v 1.0 EA
by: niteuser
niteuser4u@gmail.com

How To Install and use SpeakTrades

1. copy speaktrades.ex4 to \program files\your_metatrader\experts
2. open the folder c:\program files\your_metatrader\experts\files
3. create new directory under files name it Speak
note:Speak is case SeN.
4. copy say.exe to c:\program files\your_metatrader\experts\files\Speak\
5. drag and drop on only 1 chart - any pair must allow dll imports
6. under inputs: MAKE SURE Metatrader Path is set to the directory metatrader is installed at.
7. Set timezone to your brokers time zone shift.

notes:

windows may prompt to allow you to run say.exe take the checkmark off that says always prompt before running to make it work right.
