

(9:31 AM) WodzykFX: m
(10:40 AM) KingP: anyone takes a long position on gbp
(10:40 AM) WodzykFX: why long?
(10:41 AM) KingP: trend up break on the upside above pivot
(10:42 AM) WodzykFX: dont know anything about this rule.
(10:42 AM) WodzykFX: it was better to take short cableyen i think
(10:42 AM) KingP: sorry just my own thought
(10:43 AM) KingP: why
(10:43 AM) KingP: please share your thought
(10:44 AM) WodzykFX: because juice above 0.05 and cog just turned downtrend
(10:44 AM) WodzykFX: u could easily take 15-20 pips
(10:44 AM) WodzykFX: 10.00 cet
(10:44 AM) WodzykFX: also 9.15 cet
(10:44 AM) KingP: mmake sense what is the spread

(10:46 AM) KingP: let me know if you like them
(10:50 AM) KingP: got 6 pips almost get kill
(10:50 AM) WodzykFX: safer to take short on cableyen
(10:51 AM) WodzykFX: i think
(10:52 AM) KingP: why is gbp going up and cab/jen is going down .s this normal
(10:53 AM) WodzykFX: dont know that
(11:01 AM) KingP: doesn't there look to you it will bounce from lower band
(11:01 AM) KingP: on cab/yen
(11:05 AM) WodzykFX: i would go short again if passes 210.90 with juice and cog
(11:37 AM) naumoff: gbp buy?
(11:38 AM) WodzykFX: no
(11:38 AM) WodzykFX: no juice and not confirmed by eurUSD, according to kaveh's system
